SAFE EXPLOSIVE
FOUND GIVEN
FREE OF CHARGE

DISCOVERER REFUSES \$500,000 FOR HIS SECRET WHICH EXCELS DYNAMITE.

NEW YORK, July 23.—The safest high power explosive the world has yet seen, an explosive equal to the strongest dynamite made, the "80 per cent dynamite," has been perfected by a lieutenant of the New York national guard after three years' work.

He will give it to the United States government although half a dozen nations would pay from \$500,000 up for the secret formula. It is more than probable that in a year or two the United States army will be using no other explosive. Lieut. Harold Chase Woodward of the 22d engineers, national guard, New York, is the inventor of trolol, the newest and the most deadly explosive.

Trolol can be exploded only by fulminate of mercury, the substance used to explode dynamite. It cannot be set off by any shock, however great. In a test at Fort Wadsworth, trolol was packed into a twelve inch shell and the shell was fired at armor plate 1000 yards away. The shell struck the armor plate while going at the rate of 2750 feet a second, but the trolol inside remained unexploded in spite of the terrific concussion.

Six ounces of trolol will do the explosive work of twelve ounces of dynamite. Dynamite deteriorates in water or on the water and under certain atmospheric conditions. Trolol can be soaked in water for years and be as good as ever.

BIG BLACK AND WHITE
WIFE DO TURKEY TROT

PUGILIST JOHNSON AND MATE FILL OUT GAP IN PARIS IN ABSENCE OF ANNA HELD.

PARIS, July 25.—Jack Johnson appeared in the Revue at the Folies Bergere tonight to fill a gap caused by the absence of Anna Held, the star who was injured in an automobile accident in England. Johnson threw the medicine ball about and boxed four exhibition rounds. The fighter announced that \$5000 has been deposited at the box office for the man who would stand up against him for ten rounds.

Johnson got a hearty welcome. He is to receive \$1200 a night. His white wife joined the fighter on the stage in the final scene, when the couple did a turkey trot for a few minutes, and the audience seemed to enjoy this more than Johnson's previous exhibitions.

The success of the performance seemed to be greatest with the women in the audience.

AMUSEMENTS

Butler Theater.

At the Butler theater this evening a very interesting program of pictures will be shown as follows: "A Dangerous Poe," a Biograph drama; an Edison comedy, "Newcomb's Necktie," and a Lubin two reel railroad drama, Bracy, an engineer and widower, succeeds in reinstating Bob Glore, who had been discharged for drinking. Bob behaves well until one day he is enticed into a resort by Reina Loeb, a reckless girl. Mary, Bob's sister, and Curtis rescue him and work a lasting reformation. Reina Loeb's father, a drunkard, fell and broke his neck, and the girl was taken into the Curtis' home. When Mary, Bob's sister, later gave her hand to Bracy, it made a very happy home. Tomorrow, "Mary Stuart," a three reel Edison drama. Sunday, "Vampire of the Desert," a two reel special Vitagraph release.

WANTED

At the Bonanza office, nice clean soft rags, large and free from buttons and hooks and eyes.

GOVERNMENT TIMBER
SOLD IN TWO STATES

HANDSOME REVENUE DERIVED FROM FOREST RESERVES IN CALIFORNIA AND ARIZONA.

Two sales of government timber, aggregating over 51,000,000 feet, are announced by the United States forest service. The LaMoine Lumber and trading company contracts to cut 28,500,000 feet of saw timber from the Shasta National forest of California; and the Saginaw and Manistee Lumber company of Flagstaff has purchased 2,300,000 feet of green and dead pine and fir timber on the Coconino National forest of Arizona.

The California sale includes several kinds of timber at the following rates per thousand feet: \$3.25 for sugar pine, \$2.25 for yellow pine, \$1.25 for Douglas fir, and 50 cents for other species. The cutting period is nine years, subject to a readjustment of stumpage rates in 1918.

The area on the Tusayan is near Williams, on the Santa Fe line, which furnish ready access to the general markets. The timber is to be cut prior to December 31, 1915, and the contract price is \$2.50 per thousand feet.

In both these sales the timber will be cut by companies in conjunction with timber owned by them in the vicinity.

The government expects to get an approximate gross return of \$115,000 from the two sales, of which about \$28,750 will go to the counties in which these forests are situated, in lieu of taxes.
